

I am a dog lover who has been using Nutraflex on my 16 year old Jack Russell Terrier for the last 6 months with wonderful results.

Sharon Hart

I happened into a vets that sells Nutraflex, so we started Spot, our rough coat Jack Russell on it. Very pleased to say we have our bouncy, cheerful, happy dog back, took him to the beach the other weekend - on a lead - he was ecstatic. Thank you so much Nutravet, you've given us back our dog. Amazing product.

Trusted & recommended by vets to keep your pets active & mobile.

Easy to administer sprinkle capsules

Whole by mouth **OR** Sprinkled on food

Administration

Type	Body weight (kgs)	Loading (6 weeks) (Caps per day)	Maintenance (Caps per day)
Cats	0-9.99	1	0.5*
S/B dog	0-9.99	1	0.5*
M/B dog	10-24.99	2	1
L/B dog	25-49.99	3	1.5**
L/B dog	50+	4	2

*This amount can be given as one capsule every alternate day, if preferred.

**This amount can be given as one capsule one day, followed by two capsules the next day, and so on, if preferred.

Each sprinkle capsule contains:

Glucosamine Hydrochloride (99% pure)	505mg
Chondroitin Sulphate (90% pure)	300mg
Boswellia Extract (Boswellic Acids)	75mg
Vitamin C (as Ascorbate)	40mg
Turmeric (Curcumin Complex)	30mg
Zinc Sulphate (as Heptahydrate)	20mg

Each capsule is gelatin free and is made from vegetable ingredients.

Excipients per capsules: Plant derived magnesium stearate (to aid flow characteristics)

nutraflex

Veterinary strength support for stiff joints

For dogs & cats

Maintaining a pet's mobility and joint health helps them enjoy a happy active and healthy life.

Nutraflex's scientifically proven formula aids and soothe pets with joint stiffness by helping support their movement quickly.

Its unique formulation is ethically and sustainably sourced and combines to aid long-term joint health in dogs and cats.

Clinically formulated

Nutraflex has been scientifically formulated using independent trial data. Boswellia Extract, a key ingredient in Nutraflex has over 400 independent trials alone highlighting its fast acting benefits and how it helps support the natural systems that control inflammation.

Recommended by vets

Thousands of vets recommend Nutraflex across the world due to its unique combination of veterinary strength natural ingredients which work quickly to help pets with joint stiffness.

Fast acting

The benefits of Nutraflex are noticeable, on average within ONE week due to its high strength formula and the inclusion of Boswellia Extract which supports the natural systems that control inflammation.

Aids & supports joint structure

Nutraflex helps maintain your pet's quality of life by maintaining optimum joint health. Its high strength natural formula helps supports the natural systems that control inflammation whilst also aiding joint structure.

Nutraflex's unique formula works fast, with the benefits generally seen within 4-7 days, unlike many other joint supplements that generally take over 6 weeks before any benefit is noticed.

Nutraflex includes:

Turmeric (Curcumin Complex) - The active ingredient within Turmeric, our unique Curcumin complex is a highly bioavailable antioxidant, helping to naturally reduce free radicals whilst working synergistically with Boswellia to support the natural systems that control inflammation.

Boswellia Extract (Boswellic Acids) - A plant extract that supports the natural systems that control inflammation. It plays an important role in maintaining smooth and comfortable joint movement. It also does not cause the damage to cartilage that many anti-inflammatories do.

Glucosamine HCL - An important building block for cartilage. It helps cartilage to act as a shock absorber. There are two forms of Glucosamine; HCL and Sulphate. Glucosamine HCL is the highest quality, purest form of Glucosamine, it is more stable and occurs naturally in every living organism. Glucosamine HCL has more pure Glucosamine per gram for improved cartilage formation.

Chondroitin Sulphate - Helps maintain synovial fluid viscosity to aid joint support and is also an important building block for cartilage. Chondroitin Sulphate E from squid cartilage is the most ethically sourced form of Chondroitin with independent trial data to support its use.

Nutraflex benefits:

- ✓ Fast acting (4-7 days on average)
- ✓ Soothes stiff joints
- ✓ Aids long-term mobility, flexibility & joint structure
- ✓ Helps maintain optimum joint health
- ✓ Supports the natural systems that control inflammation
- ✓ Scientifically proven natural formula
- ✓ Includes highly bioavailable Turmeric
