nutraquin

High strength joint support with Omega-3s

For dogs & cats

Maintaining a pet's mobility and joint health helps them enjoy a happy, active and healthy life.

Nutraquin provides a unique formulation of high purity ethically and sustainably sourced ingredients that combine to aid long-term joint health in dogs and cats.

Clinically formulated

Nutraquin has been scientifically formulated using independent trial data. Boswellia Extract, a key ingredient in Nutraquin has over 400 independent trials alone highlighting its beneficial properties and how it helps support the natural systems that control inflammation.

High strength formula

Nutraquin provides a unique high strength formula that helps maintain optimum joint health using only the highest quality natural ingredients. All raw materials are both ethical and sustainable, Nutraquin does not contain any land animal derived ingredients.

Contains refined fish oils

Nutraquin contains a formula of high purity, refined Omega-3s from fish oils which provide a concentrated source of EPA and DHA. Omega-3's have been scientifically proven to aid joint mobility by supporting the natural systems that control inflammation and helping to aid blood flow to the joints.

Guaranteed purity

Nutraquin only contains 100% active ingredients without any added bulking agents or fillers. The percentage purity of the key active ingredients are stated on the label and guaranteed for consistent quality and efficacy.

Nutraquin includes market leading levels of Omega-3's EPA & DHA, which are scientifically proven to aid joints and flexibility to support a pet's freedom of movement.

Nutraquin includes:

Omega-3s - Nutraquin contains a formula of high purity, refined Omega-3s from fish oils which provide a concentrated source of EPA and DHA. Omega-3s have been scientifically proven to aid joint mobility by supporting the natural systems that control inflammation and helping to aid blood flow to the joints.

Glucosamine HCL - An important building block for cartilage. It helps cartilage to act as a shock absorber. There are two forms of Glucosamine; HCL and Sulphate. Glucosamine HCL is the highest quality, purest form of Glucosamine, it is more stable and occurs naturally in every living organism. Glucosamine HCL has more pure Glucosamine per gram for aiding cartilage formation.

Boswellia Extract - A plant extract that supports the body's natural anti-inflammatory processes. It plays an important role in maintaining smooth and comfortable joint movement. It also does not cause damage to cartilage.

Nutraquin benefits:

- ✓ Aids long-term mobility & flexibility
- ✓ Helps maintain optimum joint health
- ✓ Scientifically proven natural formula
- ✓ High strength ingredients
- ✓ Supports the natural systems that control inflammation
- ✓ Includes purified Omega-3s from fish oils
