

Multi-action support for ageing horses

Increasingly, nutraceuticals are playing a beneficial multimodal role in aiding recovery, naturally. As horses age they often require increased support for multiple areas of their health.

Specific ingredients in Nutramed have historical use and recent scientific studies confirm their benefit in maintaining musculoskeletal health and aiding liver function.

Nutramed has been specifically formulated to provide multimodal support for joints, soft tissues and liver function as part of a customised plan for your horse. It is particularly useful for elderly horses who have multiple health requirements.

Brilliant stuff! Our pony is 19 and is going better than ever. Dressage marks have improved and she's jumping like a stag bless her!

Dianne Hill

Nutramed benefits:

- ✓ Supports the natural systems that control inflammation
- ✓ Soothes joints
- ✓ Aids healthy liver function
- ✓ Helps support the digestive system
- ✓ Aids horses with high renal parameters
- ✓ High strength natural tonic for elderly horses
- ✓ Fast acting triple strength formula

nutravet

Trusted & recommended by vets to support equine health

Owning and caring for a horse can be very rewarding, but at the same time it's a big commitment. Caring for your horse is a long-term responsibility and it's important to understand your horse's health needs.

As an owner, you are well placed to monitor and support your horse's health. Identification of any changes or behavioural patterns being crucial to maintaining your horse's quality of life.

Nutravet specialises in natural health supplements, which includes support for hooves, stress and joint care.

We support animal welfare by offering the highest quality, pharmaceutical grade health products made from natural ingredients and recommended by vets.

Fast acting support for joints & mobility

Maintaining optimum joint health is crucial for your horse as their weight bearing joints get little relief and are subject to constant pressure.

The areas most commonly affected by joint stiffness are the knee joint, front fetlocks, hocks and coffin joints which can be uncomfortable for your horse. Horses often develop stiff joints as they age, but younger and growing animals can also get stiffness.

Nutraquin+ is a fast acting joint support product containing the necessary high strength ingredients that help to maintain healthy joint function in horses, whilst supporting the natural systems that control inflammation.

I have been using Nutraquin+ for horses for several months and I'm super pleased with the results! I'm currently training a young team of horses with a couple of talented ones that are aiming for the next Olympics.

Louise Bradley

Nutraquin+ benefits:

- ✓ Fast acting (see results in 4-7 days)
- ✓ Soothes stiff joints
- ✓ Aids mobility & flexibility
- ✓ Supports joint structure
- ✓ Helps to maintain your horse's quality of life by maintaining optimum joint health
- ✓ Supports the natural systems that control inflammation

Fast acting support for stress & anxiety

Horses are naturally fearful and flighty animals and can be subject to stress from many seasonal, environmental and human factors. Routine stressors can include, transport, contact with people, injury and competition. Horses exhibit anxiety and stress in a variety of ways which include, tail swishing, pawing, snorting, neighing, shaking, rearing and bucking. These symptoms can be caused by a number of individual stress factors.

Nutracalm is specifically formulated to naturally calm anxious and excitable horses and to help reduce unwanted or unruly behaviour. Nutracalm helps to normalise neurotransmitter activity and reduce mood swings. It provides a novel and natural alternative for animal healthcare by providing a unique high strength formula for supporting behavioural management.

I started using Nutracalm for my Inter 1 horse, Appie. He is super talented, however at competitions, he is very spooky and suffers with tension. Since using Nutracalm, I have noticed a massive difference in him. He no longer suffers with tension and is less spooky in the arena. I couldn't recommend this product enough.

Nicola Adams

Nutracalm benefits:

- ✓ Helps reduce stress
- ✓ Calms behaviour
- ✓ Fast acting
- ✓ No sedative effect
- ✓ High strength
- ✓ Specifically formulated for horses
- ✓ Easy administration

High strength support for healthy hooves

As they bear a large proportion of your horse's weight, strong and healthy hooves are crucial to support them throughout their life.

Despite being tough and resilient, keeping your horse's hooves healthy can ensure they enjoy a better quality of life. Understanding what to look out for to support healthy hoof growth can be key to your horse remaining healthy and strong.

Nutrahoof is specifically formulated for horses with weak, cracked and brittle hooves. It contains very high levels of Biotin and other natural ingredients to improve elasticity and hoof growth.

I've been using Nutrahoof on my old pony for 2.5 weeks and have noticed a huge difference in that short amount of time. Even the farrier has commented on the results I'm really happy!

Alice at Dulverton Vets
