

*Thanks to Nutramed my 12 year old Tibetan is now able to manage. Nutramed is helping her digestive system and her joints. She still manages to run up and down stairs. Before my vet recommended the addition of Nutramed, I had begun to notice things had started to go a bit downhill.*  
Carole Wright

*My vet suggested Nutramed to help support my Cocker Spaniel's liver. Toby has been taking one capsule daily for nearly 3 years and his blood tests show this is helping to support his liver. Toby is now 12 years old and very energetic and runs about like a 2 year old. I would certainly recommend it. Thank you.*  
Miss Patricia Pearl

# Trusted & recommended by vets to support a pet's health & well-being

Easy to administer sprinkle capsules

Whole by mouth **OR** Sprinkled on food

## Veterinary strength support for joints, soft tissues & liver function

For dogs & cats

Like humans, as pets age they are more prone to requiring additional support for their ongoing health. It is not uncommon for pets to require help for a number of situations and aid their recovery.

Nutramed has been specifically formulated by vets to support an animal's natural systems that control inflammation and provide multimodal support, making it perfect for older pets.

### Clinically formulated

Nutramed has been scientifically formulated using independent trial data. Boswellia Extract, a key ingredient in Nutramed has over 400 independent trials alone highlighting its fast acting benefits and how it helps support the natural systems that control inflammation.

### Triple strength formula

Nutramed provides a novel and natural alternative for animal health care by providing a unique high strength formula for supporting the body's natural anti-inflammatory processes. This triple strength formula is aimed at supporting three key areas of animal health care; joints, soft-tissue and liver function.

### Fast acting

The benefits of Nutramed are noticeable, on average within ONE week due to its high strength formula and the inclusion of Boswellia Extract which supports the natural systems that control inflammation.

### Multiple benefits

Increasingly, nutraceuticals are playing a beneficial multimodal role in aiding recovery, naturally. Specific ingredients in Nutramed have a historical use and recent scientific studies confirm their benefit in maintaining musculoskeletal health and aiding liver function.

Nutramed is a 100% natural product, which has been specifically formulated to support the animal's natural systems that control inflammation.

Specific ingredients in Nutramed have historical use and recent scientific studies confirm their benefit in maintaining musculoskeletal health and aiding liver function.

#### Nutramed includes:

**Boswellia Extract** (Boswellic Acids) - A plant extract that supports the body's natural anti-inflammatory processes. It plays an important role in maintaining smooth and comfortable joint movement. It also does not cause damage to cartilage.

**Milk Thistle Extract** (Silymarin) - Studies have shown that Milk Thistle has a beneficial effect in helping to aid healthy liver function.

**Pine Bark Extract** (Proanthocyanidins) - A powerful antioxidant which also supports the animal's natural systems that control inflammation to aid knocks, and sprains or post operative recovery.

#### Nutramed benefits:

- ✓ Supports the natural systems that control inflammation
- ✓ Soothes joints
- ✓ Aids healthy liver function
- ✓ Supports pets with high renal parameters
- ✓ Helps support the digestive system
- ✓ High strength natural tonic for elderly pets
- ✓ Fast acting
