# What makes Nutrabio so unique

## High strength multiple action

Nutrabet uses a unique combination of proven natural ingredients to help maintain natural digestive balance. This is achieved by increasing the number of beneficial good bacteria whilst binding to the toxins which are then removed from the gut.

## Scientifically proven

Nutrabet has been formulated using scientifically proven ingredients to achieve a fast acting paste that helps to quickly maintain normal digestive function.

## Highest quality ingredients

Nutrabet only contains the highest quality natural ingredients. All raw materials are both ethical and sustainable. Nutrabio does not contain any animal derived ingredients.

## Fast acting

Nutrabet is 16 x stronger than most probiotics, this ensures the fastest possible response in aiding normal gut function, which is usually within 24-48 hours.

## Tasty flavoured paste

Nutrabet is formulated with sweet basil and pet's love the taste of it which makes it extremely easy and stress free to administer to your pets.

## 100% natural

Nutrabet is driven by our dedication to animal welfare and the sustainability of the environment. We only use natural ingredients packaged in environmentally friendly recycled materials where possible.

## Probiotic (Enterococcus faecium)

The high strength Nutrabio formula administers 4 billion Enterococcus faecium cells per 2ml notch to support the gut's own healthy bacteria. This ensures rapid intestinal stabilisation. Research has shown that Enterococcus faecium helps to normalise faecal consistency.

## Prebiotics (FOS and MOS)

Studies have shown that supplementing prebiotics such as FOS (Fructo-oligosaccharides) and MOS (Mannan-oligosaccharides) can increase the number of beneficial bacteria.

## Kaolin

Kaolin acts as an adsorbent. Adsorbents work by binding toxins and removing them from the gut. Kaolin also absorbs water helping to firm up loose stools.

## Sweet Basil Extract

Unique to Nutrabio, Sweet Basil Extract is a palatable ingredient that has several important effects on gastrointestinal health and digestive balance.

## Composition

(Feed Materials/Additives): Enterococcus faecium DSM 10663 NCIMB 10415 (4b1707), 2 x10<sup>12</sup> cfu/Kg, Sunflower and Canola Oil, Kaolin Clay 100g/Kg, Sweet Basil Extract, Fructo-oligosaccharides (FOS), Mannan-oligosaccharides (MOS) and Yeast Extract.

## Administration

Type	Body weight (kgs)	Loading - Day 1 (2ml = 1 notch)	Maintenance Days 2+ (2ml = 1 notch)
Cats	0-9.99	4ml (2 notches)	2ml (1 notch)
S/B dog	0-9.99	4ml (2 notches)	2ml (1 notch)
M/B dog	10-24.99	6ml (3 notches)	4ml (2 notches)
L/B dog	25-49.99	8ml (4 notches)	4ml (2 notches)
L/B dog	50+	10ml (5 notches)	6ml (3 notches)

*My dog loves Nutrabio. When we need to use it he sits and salivates. It works really well and is so easy to give as he enjoys it so much. We have tried other pastes for upset tummies but Nutrabio works best for our Boxer dog.*

Debra Astbury

*Nutrabet is a fantastic product which always works for my dog Paris. Paris has loads of allergies and often gets an upset tummy and I tried everything before I was told about Nutrabio now I wouldn't be without it. Definitely recommend it unreservedly.*
