Made in Britain

What makes Nutracys+ so unique

Triple action formula

Nutracs+ contains the unique triple action combination of N-Acetyl D-Glucosamine, Quercetin and L-Tryptophan which are beneficial for supporting normal urinary tract function whilst reducing stress and anxiety.

High strength

Nutracs+ provides a novel and natural alternative for animal healthcare by providing a unique high strength formula to support and maintain normal urinary tract function.

Highest quality ingredients

Nutracs+ only contains the highest quality natural ingredients Nutracys+ does not contain any animal derived ingredients and no fillers or bulking agents are used.

Ethically sourced ingredients

All raw materials are both ethically and sustainably sourced.

Supports the bladder

A large proportion of the bladder's natural protective layer is made up of Glycosaminoglycans (GAGs). These GAGs protect the bladder walls from the irritating effects of urine. Nutracys+ contains N-Acetyl D-Glucosamine that supports the GAG layer and reduces irritation. The addition of the unique phyto-extract, Quercetin, is designed to support your pet's natural systems that control inflammation.

Easy administration

Nutracs+ is easy to administer as each sprinkle capsule can be given whole by mouth or the contents can be sprinkled into food.

Reduces stress & anxiety

Reducing stress is considered to be extremely beneficial in the management and support of healthy urinary tract health. Nutracys+ includes L-Tryptophan, which is shown to aid the reduction in

stress and anxiety levels due to its involvement in the production of the hormone Serotonin.

Quercetin

Recent studies have shown Quercetin supports the body's natural anti-inflammatory processes and is particularly beneficial for supporting urinary tract function.

L-Tryptophan

L-Tryptophan is a natural amino acid found in many proteins and is involved in the production of the hormone Serotonin and has been shown to help reduce stress and anxiety levels.

N-Acetyl D-Glucosamine

Offers structural support to the bladder lining, which acts as a natural barrier to protect the underlying urinary tract layers.

Ingredients per capsule

N-Acetyl D Glucosamine (99% Pure)	130mg
Quercetin (95% Pure)	15mg
L-Tryptophan (99% Pure)	40mg

Administration

Type	Body weight (kgs)	Loading (2 weeks) (Caps per day)	Maintenance (Caps per day)
Cats	0-9.99	2	1
S/B dog	0-9.99	2	1
M/B dog	10-24.99	3	1.5**
L/B dog	25-49.99	4	2
L/B dog	50+	4	2

For optimal benefit we recommend splitting the administration rate into 2 feeds per day.

**This amount can be given as one capsule one day, followed by two capsules the next day, and so on, if preferred.

Nutracs+ was recommended by my vet for my cat and in only 2 days the transformation in her is amazing! So pleased we have found Nutracys+, a great product!

Jo Robinson

Fantastic product, I was given Nutracys+ from my vet for my little cat 'Angel', and within a couple of days she was like the cat we all know and love - can highly recommend.
