# What makes Nutramed so unique

## Triple strength formula

Nutramed provides a novel and natural alternative for animal health care by providing a unique high strength formula for supporting the body's natural anti-inflammatory processes.

This triple strength formula is aimed at supporting three key areas of animal health care; joints, soft-tissue and liver function.

## Clinically formulated

Nutramed has been scientifically formulated using independent trial data. Boswellia Extract, a key ingredient in Nutramed has over 400 independent trials alone highlighting its fast acting benefits and how it helps support the natural systems that control inflammation.

## Highest quality ingredients

Contains only the highest quality natural plant sourced ingredients.

## Ethically sourced ingredients

All raw materials are both ethically and sustainably sourced.

## Fast acting

The benefits of Nutramed are noticeable, on average within ONE week due to its synergistic high strength formula.

## Multiple benefits

Increasingly, nutraceuticals are playing a beneficial multimodal role in aiding recovery, naturally. Specific ingredients in Nutramed have a historical use and recent scientific studies confirm their benefit in maintaining musculoskeletal health and aiding liver function.

- Aids & soothes joints
- Promotes liver function
- Aids pets with high renal parameters
- Helps support the digestive system

## Milk Thistle Extract (Silymarin)

Recent studies have shown that Milk Thistle has a beneficial effect in helping aid healthy liver function.

## Boswellia Extract

(Boswellic Acids) - is a plant extract that supports the body's natural anti-inflammatory processes. It plays an important role in maintaining smooth and comfortable joint movement. It also does not cause damage to cartilage.

## Pine Bark Extract (Proanthocyanidins)

A powerful antioxidant which also supports the animal's natural systems that control inflammation to aid knocks, and sprains or post operative recovery.

## Ingredients

	Per 10g scoop	Per caps
Boswellia Extract (Boswellic Acids)	750mg	75mg
Milk Thistle Extract (Silymarin)	750mg	75mg
Pine Bark Extract (Proanthocyanidins)	300mg	30mg

## Administration

Type	Body weight (kgs)	Loading (Per day)	Maintenance (Per day)
S/B dog & cat	0-9.99	1 cap*	0.5 cap
M/B dog	10-24.99	2 caps*	1 cap
L/B dog	25-49.99	3 caps*	1.5 caps
L/B dog	50+	4 caps*	2 caps
Horse	0-500kg	2x scoops*	1 scoop
Horse	500+ kg	3x scoops*	1.5 scoop

\* Loading period for dogs/cats = 7 days / loading period for horses = 14 days  
For optimal benefit we recommend splitting the administration rate into 2 feeds per day.  
Capsule can be administered either whole by mouth, or to be sprinkled onto or into usual food. Powder to be sprinkled onto or into your horse's usual food.

*On the advice of my vet, I have been giving my dog (9 year old German Shepherd) Nutramed for over 8 months and I'm very pleased with the results - her movement seems easier and I've even stopped giving her other prescribed products, Thank you Nutravet.*

Anthony Boland, Tyne & Wear

*Nutramed - sometimes referred to as the 'miracle product' by my clients. I started to see the benefits of Nutramed about 8 months ago when my old dog started to go off her legs but after discussing Nutramed with our rep I decided to try her on it. She is still pottering about and will be 15 in a couple of weeks. Since then I have used Nutramed for my older patients and have seen brilliant results. Rarely does anyone come back and say they did not see any results. In fact a few have asked if they can take it themselves.*

Kirsty Hosford, Premier Vets, Gateshead
