What makes Nutraquin+ so unique

Fast acting

The benefits of Nutraquin+ are noticeable, on average within ONE week due to its high strength formula and the inclusion of Boswellia Extract which supports the natural systems that control inflammation and has over 400 independent trials supporting its use.

Scientifically proven formula

Nutraquin+ has been formulated using the latest independent trial data of natural ingredients. Boswellia alone has over 400 independent trials supporting its use.

Highest quality ingredients

Nutraquin+ only contains the highest quality natural ingredients. All raw materials are both ethical and sustainable. Nutraquin+ does not contain any animal derived ingredients.

Next level support

Nutraquin+ provides extra strength support to help aid and soothe pets with signs of joint stiffness.

Best value for money

On the face of it many joint supplements can appear good value however, many are very low in strength. The Nutraquin range provides the highest strength products for pets whilst delivering the most affordable price.

Boswellia Extract

(Boswellic Acids) - is a plant extract that supports the body's natural anti-inflammatory processes. It plays an important role in maintaining smooth and comfortable joint movement. It also does not cause damage to cartilage.

Glucosamine HCL

An important building block for cartilage. It helps cartilage to act as a shock absorber. There are two forms of Glucosamine; HCL and Sulphate.

Glucosamine HCL is the highest quality, purest form of Glucosamine, it is more stable and occurs naturally in every living organism. Glucosamine HCL has more pure Glucosamine per gram for improved cartilage formation.

Chondroitin Sulphate

Helps maintain synovial fluid viscosity to aid joint support and is also an important building block for cartilage. Chondroitin Sulphate E from squid cartilage is the most ethically sourced form of Chondroitin with independent trial data to support its use.

Ingredients

	Per 10g scoop	Per caps
Glucosamine HCL (99% Pure)	5100mg	505mg
Chondroitin Sulphate (90% Pure)	2100mg	400mg
Vitamin C (as ascorbate)	500mg	40mg
Zinc Sulphate (as heptahydrate)	200mg	20mg
Boswellia Extract (Boswellic Acids)	750mg	75mg

Administration

* Loading period for dogs/cats = 6 weeks / loading period for horses = 35 days

** This amount can be given as one capsule every alternate day, if preferred.

*** This amount can be given as one capsule one day, followed by two capsules the next day, and so on, if preferred.

We are extremely impressed with Nutraquin+. The quality and purity of the ingredients have resulted in animals responding much more quickly than other products we have used in the past. We are happy to recommend Nutraquin+. We have also noticed good client compliance and a very high percentage of repeat customers due to clients seeing tangible results.

Mr Kevan Judge BVSc MRCVS, Partner, Shearbridge Veterinary Group

Nutraquin+ has become our go-to joint supplement. We've had some amazing results with it including Harriet - who has come off other prescribed joint products altogether. Every single client we have given it to has reported a significant benefit in their pets. We love it!

Windmill Vets Crawley

Nutraquin+ is a brilliant product that we highly recommend!
