

nutravet

The natural choice
for animal healthcare

for dogs, cats & horses

Made in Britain

nutravet

Helping animals live a healthy active life, today & tomorrow

From a clinical point of view I have become convinced that Nutravet have a range of products of real benefit to our small animal patients. I was looking for a quality product at a competitive price in what is a very crowded veterinary market. I have experienced that the range of Nutravet products perform well and do what one would expect them to do, and I am confident to support and explain to clients that unlike some other products, what is claimed on the label in terms of active ingredient is consistently delivered by Nutravet products. What I found with Nutravet is a good range of products at really competitive prices."

Mr Ian Clarke VetMB MA MRCVS Principal

A very good company delivering quality products at affordable prices. Customer service is always very helpful and friendly. We have only had good experiences when ordering from Nutravet

Jennifer Clarke RVN,
Elisabeth Huntenberg
Veterinary Practice

At Nutravet we are focussed on developing the best veterinary strength, natural healthcare products to aid and support your pet's wellbeing. Our dedication to providing only the best is why thousands of veterinary professionals recommend our products every day.

So whether it's maintaining a pet's joints and mobility or helping them recover from surgery, we have a natural solution to help.

Scientifically proven

All our products have been formulated and developed using the latest independent trial data and tested by vets in the market.

Environmentally focussed

We are dedicated to a sustainable environment. We use 100% recycled packaging where possible on all our products and materials.

Pure, natural & ethical

Our ingredients are both ethically and sustainably sourced with the purity levels stated on the packaging, so you know exactly what you are giving your animals.

Guaranteed label claim

All Nutravet products are manufactured in the UK to pharmaceutical grade standards and tested for the purity of ingredients at the raw material stage and the final completed product stage to guarantee the percentage purity, stated label claim and product quality.

Why Nutravet?

- ✓ Fast acting veterinary strength formulas
- ✓ Trusted established brand
- ✓ Excellent value for money
- ✓ Recommended by vets throughout the world
- ✓ Pure & natural products that work
- ✓ Fantastic feedback
- ✓ Made in Britain

nutravet

nutraquin

Everyday support for joints & mobility

For dogs & cats

A life changing product. We noticed after a couple of weeks our 11 year old Labrador had a lot more spring in her step and was keen to play, whatever the weather. She's still going strong one year later.

Jill Wareham

ALL our patients who regularly take Nutraquin noticeably benefit from the product, and clients have all been impressed with the results seen in their pets. We would thoroughly recommend both the company, Nutravet, and their products.

Mr Nigel C Hough BVSc BSC MRCVS. Practice Principal

Maintaining a pet's mobility and joint health helps them enjoy a happy, active and healthy life.

Nutraquin provides a unique formulation of high purity ethically and sustainably sourced ingredients that combine to aid long-term joint health in dogs and cats.

Clinically formulated

Nutraquin has been scientifically formulated using independent trial data. Boswellia Extract, a key ingredient in Nutraquin has over 400 independent trials alone highlighting its beneficial properties and how it helps support the natural systems that control inflammation.

High strength formula

Nutraquin provides a unique high strength formula that helps maintain optimum joint health using only the highest quality natural ingredients. All raw materials are both ethical and sustainable, nutraquin does not contain any land animal derived ingredients

Guaranteed purity

Nutraquin only contains 100% active ingredients without any added bulking agents or fillers. The percentage purity of the key active ingredients are stated on the label and guaranteed for consistent quality and efficacy.

Nutraquin includes:

Omega-3s - Nutraquin contains a formula of high purity, refined Omega-3s from fish oils which provide a concentrated source of EPA and DHA. Omega-3's have been scientifically proven to aid joint mobility by supporting the natural systems that control inflammation and helping to aid blood flow to the joints.

Glucosamine HCL - An important building block for cartilage. It helps cartilage to act as a shock absorber. There are two forms of Glucosamine; HCL and Sulphate. Glucosamine HCL is the highest quality, purest form of Glucosamine, it is more stable and occurs naturally in every living organism. Glucosamine HCL has more pure Glucosamine per gram for aiding cartilage formation.

Boswellia Extract - A plant extract that supports the body's natural anti-inflammatory processes. It plays an important role in maintaining smooth and comfortable joint movement. It also does not cause damage to cartilage.

Nutraquin benefits:

- ✓ Aids long-term mobility & flexibility
- ✓ Helps maintain optimum joint health
- ✓ Scientifically proven natural formula
- ✓ High strength ingredients
- ✓ Supports the natural systems that control inflammation
- ✓ Includes purified Omega-3s from fish oils

nutravet

nutraquin+

Fast acting support for joints & mobility

For dogs, cats & horses

We found out Wilson had stiffness in his front legs, the vet recommended Nutraquin+. It's been 7 days since we started to give him the capsules and can honestly say we can see an improvement. He's like a new dog. Thank you Nutravet.

Vanessa Kelso

This product is impressive. My ten-year old Cocker Spaniel, Toby was struggling to get up stairs for a long time. Our vet suggested Nutraquin+ for dogs - within days he has much more movement and is now so agile.

Lorna Chavda

I have had my dog on Nutraquin+ for a while now and they have made a massive improvement on her shoulder stiffness.

Anna Noble

Nutraquin+ provides fast acting support for pets with joint stiffness by helping aid their movement quickly with its extra strength, scientifically proven formula. Unlike other joint supplements that generally take over 6 weeks before any benefit is noticed, Nutraquin+ works fast, with the benefits generally seen within 4-7 days.

Fast acting

The benefits of Nutraquin+ are noticeable, on average within ONE week due to its high strength formula and the inclusion of Boswellia Extract which supports the natural systems that control inflammation and has over 400 independent trials supporting its use.

Clinically formulated

Nutraquin+ has been scientifically formulated using independent trial data. Boswellia Extract, a key ingredient in Nutraquin+ has over 400 independent trials alone highlighting its fast acting benefits and how it helps support the natural systems that control inflammation.

Scientifically proven

In an independent in vitro blind study carried out against the other leading pet joint supplements on the market, Nutraquin+ performed significantly better, results being 25% more effective than competing joint supplements.

Nutraquin+ includes:

Boswellia Extract - A plant extract that supports the body's natural anti-inflammatory processes. It plays an important role in maintaining smooth and comfortable joint movement. It also does not cause damage to cartilage.

Glucosamine HCL - An important building block for cartilage. It helps cartilage to act as a shock absorber. There are two forms of Glucosamine; HCL and Sulphate. Glucosamine HCL is the highest quality, purest form of Glucosamine, it is more stable and occurs naturally in every living organism. Glucosamine HCL has more pure Glucosamine per gram for improved cartilage formation.

Chondroitin Sulphate - Helps maintain synovial fluid viscosity to aid joint support and is also an important building block for cartilage. Chondroitin Sulphate E from squid cartilage is the most ethically sourced form of Chondroitin with independent trial data to support its use.

Nutraquin+ benefits:

- ✓ Fast acting (4-7 days on average)
- ✓ Soothes stiff joints
- ✓ Aids mobility, flexibility & supports joint structure
- ✓ Helps maintain optimum joint health
- ✓ Supports the natural systems that control inflammation
- ✓ Scientifically proven natural formula

nutravet

nutraflex

Veterinary strength support for joints & mobility

For dogs & cats

Nutraflex provides the next level in support for pets with joint stiffness by helping aid their movement quickly. Its veterinary strength, scientifically proven formula helps pets with joint stiffness by aiding their stiff joints quickly.

Clinically formulated

Nutraflex has been scientifically formulated using independent trial data. Boswellia Extract, a key ingredient in Nutraflex has over 400 independent trials alone highlighting its fast acting benefits and how it helps support the natural systems that control inflammation.

Recommended by vets

Thousands of vets recommend Nutraflex across the world due to its unique combination of veterinary strength natural ingredients which work quickly to help pets with joint stiffness.

Fast acting

The benefits of Nutraflex are noticeable, on average within ONE week due to its high strength formula and the inclusion of Boswellia Extract which supports the natural systems that control inflammation.

Aids & supports joint structure

Nutraflex helps maintain your pet's quality of life by maintaining optimum joint health. Its high strength natural formula helps supports the natural systems that control inflammation whilst also aiding joint structure.

Nutraquin+ includes:

Turmeric (Curcumin Complex) - Our unique Curcumin complex (The active ingredient within Turmeric), is a highly bioavailable antioxidant, helping to naturally reduce free radicals whilst working synergistically with Boswellia to support the natural systems that control inflammation.

Boswellia Extract (Boswellic Acids) - This plant extract supports the natural systems that control inflammation. It plays an important role in maintaining smooth and comfortable joint movement.

Glucosamine HCL - An important building block for cartilage. It helps cartilage to act as a shock absorber. There are two forms of Glucosamine; HCL and Sulphate. Glucosamine HCL is the highest quality, purest form of Glucosamine, it is more stable and occurs naturally in every living organism. Glucosamine HCL has more pure Glucosamine per gram for improved cartilage formation.

Chondroitin Sulphate - Helps maintain synovial fluid viscosity to aid joint support and is also an important building block for cartilage. Chondroitin Sulphate E from squid cartilage is the most ethically sourced form of Chondroitin with independent trial data to support its use.

I am a dog lover who has been using Nutraflex on my 16 year old Jack Russell Terrier for the last 6 months with wonderful results.

Sharon Hart

I happened into a vets that sells Nutraflex, so we started Spot, our rough coat Jack Russell on it. Very pleased to say we have our bouncy, cheerful, happy dog back, took him to the beach the other weekend - on a lead - he was ecstatic. Thank you so much Nutravet, you've given us back our dog. Amazing product.

Sarah Weeks

Nutraflex benefits:

- ✓ Fast acting (4-7 days on average)
- ✓ Soothes stiff joints
- ✓ Aids long-term mobility, flexibility & supports joint structure
- ✓ Helps maintain optimum joint health
- ✓ Supports the natural systems that control inflammation
- ✓ Scientifically proven natural formula
- ✓ Includes highly bioavailable Turmeric

nutravet

nutraplaque

Advanced support for reducing plaque, tartar & bad breath

For dogs & cats

I use Nutraplaque for both of my old cats to keep their teeth healthy (and stop their bad breath!!). After a few weeks, I certainly noticed the difference, specifically in their breath. The capsules just get sprinkled into their food or sometimes I hide in some tuna as they can be fussy and they eat it no problems.

Peter Jackson

We were recommended Nutraplaque by our vets to make sure plaque doesn't build up on our fantastic Frank's teeth. We just sprinkle it into his meal and he doesn't even know he's having it - perfect!

Sharon Wilson

Nutraplaque is proven to aid oral health and hygiene by systemically working against bad breath, tartar & plaque around the clock.

You can start using Nutraplaque at any age as part of your pet's daily oral health routine to reduce plaque and tartar build up.

Clinically formulated

Nutraplaque includes clinically proven ingredients that aid oral health and hygiene by systemically working against bad breath and tartar. The unique double action formula combines to support optimal oral health by reducing plaque build up, and bad breath.

Helps to prevent & soften tartar

The seaweed bio-actives are absorbed systemically and are secreted into the saliva to reduce the accumulation of plaque (which hardens to become tartar). Cleaner whiter teeth improve oral health and produce fresher breath. Nutraplaque should be fed continuously to maintain this effect.

Reduces plaque build up by 35%

The specially selected patented Norwegian seaweed within Nutraplaque has been shown to reduce plaque build-up by 35% after just 4 weeks use.

Naturally helps oral hygiene 24 hours per day

The natural ingredients within Nutraplaque improve oral health around the clock, where they work within the saliva to reduce new plaque from forming whilst softening existing tartar.

Nutraplaque includes:

Ascophyllum Nodosum - Ascophyllum nodosum is a special source of brown seaweed selected for its ability to reduce plaque, tartar and bad breath. It contains bio-actives such as Fucoidans and Polyphenols which are systemically absorbed into the body tissues and are clinically proven to reduce oral plaque and improve gum and teeth health.

Green Tea Extract (Decaffeinated) - Green Tea contains antioxidant Polyphenols called Catechins, which have the ability to bind to tooth enamel and reduce plaque adhesion. A reduction in oral bacteria numbers reduces tartar accumulation and helps produce fresher breath.

Nutraplaque benefits:

- ✓ Scientifically proven to reduce plaque & remove tartar
- ✓ Helps control plaque
- ✓ Reduces bad breath
- ✓ Supports healthy teeth & gums
- ✓ Easy to administer sprinkle capsules
- ✓ 100% natural
- ✓ Free from artificial colours, preservatives, gluten & sugar

nutracalm

Fast acting support for stress & anxiety

For dogs, cats & horses

Nutracalm is definitely having an effect. He has been much more workable and less sharp. He is a typical Welsh D and usually melts down at everything that moves but he is approachable and much friendlier. Riding wise, he hasn't lost his spark but can be taken to a show and give his all without panicking so thumbs up from me!!

Vikki Fowler BVetMed, MRCVS,

Would like to thank you, this the first time in 12 years we managed to get through firework season without an upset and ill dog after trying Nutracalm. Thank you very much Nutracalm made it so much easier.

Samantha cope

I can recommend Nutracalm, we used it over the fireworks period with great success. It does not sedate my girl, but made her much calmer.

Jan Killingback

Nutracalm has been specially formulated using a unique combination of natural ingredients. Its fast acting nature makes it the perfect solution for pets that are affected by stressful situations such as fireworks, loud noises, separation anxiety, travelling, vet visits and kennel stays.

Fast acting

Nutracalm is a fast acting natural supplement with calming properties. It has been designed to promote a quick natural response once taken, with results often evident within one hour* of taking the capsule.

*This time is an average and based on dog

High strength formula

Nutracalm provides a novel and natural alternative for animal healthcare by providing a unique high strength formula for supporting behavioural management.

Highest quality ingredients

Nutracalm only contains the highest quality natural ingredients, it does not contain any animal derived ingredients.

Ethically sourced & 100% natural

Nutravet is driven by our dedication to animal welfare and the sustainability of the environment. All raw materials are both ethical and sustainable. We only use natural ingredients packaged in environmentally friendly recycled materials.

Nutracalm includes:

GABA* - As an important neurotransmitter in the brain and is responsible for relaxing the nervous system. *GABA is only contained within Nutracalm for dog & cats

L-Theanine - An amino acid component of Green Tea and is involved in Dopamine neurotransmitter function. It has been shown to have a calming effect in dogs and cats.

L-Tryptophan - A natural amino acid found in many proteins which is involved in the production of the hormone Serotonin and has been shown to help reduce aggression and stress.

Passiflora Incarnata - Commonly known as passion flower this extract has long been known for its ability to relax and reduce tension. Biochemical studies show that natural flavonoids are a key active ingredient and that Passiflora supports the effectiveness of GABA brain receptors which promote relaxation.

Nutracalm benefits:

- ✓ Fast acting (1-2 hrs)
- ✓ Helps reduce stress
- ✓ Calms behaviour
- ✓ No sedative effect
- ✓ High strength
- ✓ Easy administration sprinkle capsules

nutravet

nutramarin+

Veterinary strength support for healthy liver function

For dogs & cats

After discussions with my vets, I started using Nutramarin+ at the end of April and have been using it ever since. There has been such an improvement that I have no doubts about continuing to use this product. I think the results speak for themselves. Thank you so much Nutramarin+ for producing such a brilliant product.

Sue Main

I use Nutramarin+ on my mini schnauzer who has suffered with Pancreatitis and raised liver enzymes and also Nutramega. I have been using both these products which were recommended by my Vet, Miss Bendelow for over 7 months now and the difference they have made to my Georgie are amazing. His skin and coat are looking fantastic as he had lost his fur down his back and his liver enzymes are practically back to normal. Thank you so much.

Lynne Hilton

The advanced triple action formula of Nutramarin+ is designed to support optimal liver health by increasing the natural antioxidant levels required by the liver to maximise liver detoxification, aid the natural systems that control inflammation and help reduce free radicals.

Advanced triple action antioxidant

The unique triple action formula of Nutramarin+ is designed to support optimal liver health by increasing the natural antioxidant levels required by the liver to maximise liver detoxification, aid the natural systems that control inflammation and help reduce free radicals.

Helps maximise liver detoxification

Detoxification of the liver is crucial to maintaining optimum liver health. Nutramarin+ helps to naturally cleanse the liver by aiding liver detox and increases the natural antioxidant levels required by the liver. It is a high potency antioxidant that helps reduce free radicals.

Aids the liver when it's processing medication

Certain medications can cause an accumulation of toxins which can be harmful to the liver. Nutramarin+ aids liver detox and supports the liver's neutralisation of free radicals by increasing its natural antioxidant levels.

Double enteric coated capsules

Nutramarin+ is the first SAME liver product that is double enteric coated to allow the ingredients effective transit through the small intestine before being released and absorbed to provide the most positive effect.

Nutramarin+ includes:

SAME (S-Adenosyl-L-Methionine) - A naturally occurring methyl donor that has strong antioxidant properties and has been shown to help aid healthy liver function. SAME helps to boost beneficial liver Glutathione.

Silybin (Complex) - A special bioavailable complexed form of Milk Thistle extract which has proven bioactive properties. Silybin works as a high potency antioxidant within the liver and supports the natural systems that control inflammation.

Turmeric extract (Curcumin) - Our unique Curcumin, the active ingredient within Turmeric is a highly bioavailable antioxidant that helps reduce free radicals whilst supporting the body's own natural anti-inflammatory processes. Curcumin has a similar antioxidant activity to Silybin but also aids the production of beneficial Glutathione.

Nutramarin+ benefits:

- ✓ Supports optimal liver health
- ✓ Potent triple action antioxidant
- ✓ Helps to naturally cleanse the liver
- ✓ Helps maximise liver detoxification
- ✓ Fast acting & palatable
- ✓ Supports the liver when it's processing medication
- ✓ Enteric coated for maximum stability & absorption
- ✓ Includes high strength SAME

nutravet

nutramega

High strength nutritional support for healthy skin & a glossy coat

For dogs & cats

My black Labrador, Cody, is doing really well thanks to Nutramega, his coat is almost restored to its former glory and his scratching has stopped altogether. After 2 months the change is quite dramatic!

Margaret Cornwall

Nutramega made my Bulldog's coat lovely and shiny and helps with her dry skin.

Warren Richards

I've had an amazing response with Nutramega with a chocolate Labrador called Hershey who had a dry coat with patchy loss. He went on Nutramega 6 weeks ago and now I barely recognise him. His coat is thick, glossy, luxurious and soft and fully grown back, phenomenal change and the owner is very happy.

Georgia Owen, Castle House Vets

Nutramega has been developed by vets using a unique formula of key natural ingredients to aid healthy skin and a glossy coat, whilst soothing dry, flaky skin and reducing itching and scratching.

High strength, high quality

Nutramega contains only the highest quality natural ingredients and provides a natural alternative for supporting skin and coat maintenance.

Contains refined fish oils

Nutramega contains highly refined Omega-3 fish oil from ocean sardines. The fish oil is put through an exclusive six-step manufacturing process to extract the beneficial Omega-3s EPA and DHA from the oil. Refining the oil removes heavy metals and other undesirable pollutants to ensure maximum purity.

No added Omega-6 fatty acids

Studies have shown adding Omega-6s has a negative effect on reducing inflammation and so for this reason Nutramega contains no added Omega-6 fatty acids.

Ethically sourced & natural

All raw materials are both ethical and sustainable. We only use natural ingredients packaged in environmentally friendly materials.

Nutramega includes:

Omega-3s - Omega-3s work in the skin to aid the body's own natural anti-inflammatory processes.

EPA and DHA - These are the precursors for newly discovered lipids called resolvins and protectins, which support the natural systems that control inflammation. Nutramega contains a high strength formula totalling 275mg of Omega-3s with active fatty acids EPA (130mg) and DHA (85mg).

d-Biotin - d-Biotin synthesises fatty acids and is important for maintaining healthy skin, coat and nails.

d-Alpha Tocopherol (Natural Vitamin E) - The most potent natural source of Vitamin E is used as an antioxidant to support the immune system.

Nutramega benefits:

- ✓ Calms sensitive skin
- ✓ Soothes dry, flaky skin
- ✓ Reduces itching & scratching
- ✓ Aids comfort
- ✓ Strengthens brittle nails
- ✓ Aids the body's own natural anti-inflammatory processes
- ✓ Contains sustainable marine sourced ingredients

nutravet

nutramind

High strength support for brain & mental function

For dogs & cats

Nutramind has made life easier for my reactive Springer. We tried reducing the amount with a view to stopping it after she was spayed and there was a marked rise in her anxieties again. Needless to say she's back on the full amount again.

Dawn Wilson

I'm so pleased with nutramind for my dog. All the pacing he did in the evening has stopped. He was continually wanting to go outside just to stare at the gate or the car and that has stopped too! I am delighted - thank you!"

Anita Thornley

I started my 16 year old dog on Nutramind last week. He wasn't settling at night and didn't want to sit with me. He would worry about silly things that never worried him in the past and would pant and shake. I have been so worried about him but since being on Nutramind I've noticed a change already. I feel I have my Ollie back. Thanks for making such a good product.

Rebecca Steers

Nutramind has been developed by vets to provide high strength nutritional support for healthy brain function in dogs and cats. It includes the key nutrients for supporting cognitive function in ageing pets, whilst also benefiting younger pets in training and learning.

High strength, high quality

Nutramind contains only the highest quality natural ingredients to provide a natural aid for supporting brain health and cognitive function.

Aids learning abilities

Omega-3s have been shown to aid learning abilities in young puppies. Other studies linked low blood Omega-3 with dog aggression, indicating beneficial applications of Omega-3s throughout the entire life of your pet to maintain brain health.

Supports cognitive function

Research demonstrates that Omega-3 supplementation from fish oil supports cognitive function. Oral Omega-3, especially from DHA has been shown to aid the structure and function of brain cells by aiding the natural synthesis of synaptic membranes and dendritic spines, thereby aiding neurotransmission.

Nutramind includes:

Refined fish oils - Nutramind contains highly refined Omega-3 fish oil from ocean sardines. The fish oil is put through an exclusive 6-step manufacturing process to extract the beneficial Omega-3s DHA and EPA whilst removing other undesirable pollutants for maximum purity.

Phosphatidylserine - An amino acid derivative compound that is fat-soluble and found in high amounts in the brain, where it contributes to cognitive functioning.

Ginkgo Biloba Extract - The leaf extract of Ginkgo is an antioxidant and aids the body's own natural anti-inflammatory processes. It has been used for over 5000 years to support memory ability and hypoxia tolerance in brain cells.

Natural Vitamin E - Helps support cellular ageing. It is another potent antioxidant that helps aid free radicals within the brain.

B Vitamins - Some essential B Vitamins are implicated in the synthesis of brain neurotransmitters specifically Dopamine and Noradrenaline. A two year study showed that a mixture of B Vitamins helped maintain brain health particularly in areas.

Nutramind benefits:

- ✓ Aids healthy brain function
- ✓ Supports cognitive function
- ✓ Aids training and learning
- ✓ Easy administration
- ✓ High strength Omega-3's rich in DHA

nutravet

nutrabilio

Fast acting support for pets with sensitive digestion

For dogs & cats

I have to say Nutrabilio is excellent and I was impressed with how quickly it helped sort out my poorly cat's sensitive tummy.

Polly Walton

Nutrabilio is brilliant stuff. My GSD had a sensitive tummy for 11 days. I was given Nutrabilio from our vet and it stopped after using just once.

Dawn Elder

I'm amazed at the immediate effect Nutrabilio has had on my boy, easing his digestive upsets, he is a different dog after just a few days!

Karin Lovatt

Nutrabilio has been developed using a unique combination of scientifically proven natural ingredients to aid digestive health. The multiple action formula increases the number of beneficial good bacteria, whilst binding toxins to replenish the natural balance of gut bacteria. This helps to improve stool consistency and reduces flatulence in your pet.

Veterinary strength

Nutrabilio uses a unique combination of veterinary strength natural ingredients to help support digestive balance. This is achieved by increasing the number of beneficial good bacteria, whilst binding the toxins, which are then passed safely through the gut.

Scientifically proven

Nutrabilio has been formulated using scientifically proven ingredients to achieve a fast acting paste that helps to quickly maintain normal digestive function.

Fast acting

Nutrabilio is 16x stronger than most probiotics, this ensures the fastest possible response in aiding normal gut function, which is usually within 24-48 hours.

Tasty flavoured paste

Nutrabilio is formulated with sweet basil and pet's love the taste of it which makes it extremely easy and stress free to administer to your pets.

Nutrabilio includes:

Probiotic (Enterococcus faecium) - The high strength Nutrabilio formula administers 4 billion enterococcus faecium cells per 2ml to support the gut's own healthy bacteria and boost the immune system. This ensures rapid intestinal stabilisation. Research has shown that enterococcus faecium helps to normalise faecal consistency.

Prebiotics (FOS and MOS) - Studies have shown that supplementing prebiotics such as fructo oligosaccharides (FOS) and mannan-oligosaccharides (MOS) can increase the number of beneficial bacteria in the gut while blocking harmful bacteria.

Sweet basil extract - Unique to Nutrabilio, sweet basil extract is a palatable ingredient that has several important effects on gastrointestinal health and normalising digestive balance.

Kaolin - Kaolin acts as an absorbant. Absorbants work by binding toxins and removing them from the gut safely. Kaolin also absorbs water helping to firm up loose stools.

Nutrabilio benefits:

- ✓ Firms stool consistency
- ✓ Helps aid digestive function
- ✓ Increases friendly bacteria
- ✓ Replenishes natural balance of gut bacteria
- ✓ Binds toxins
- ✓ Highly palatable natural formula
- ✓ Reduces flatulence
- ✓ Fast acting

nutravet

nutraflora

High strength probiotic for everyday gut health & immunity

For dogs & cats

The vet started my 15 year old Standard Poodle Maisie on Nutraflora a couple of months ago and her stomach settled within a week. She is not going to bounce back to normal as she has other health issues but Nutraflora has certainly made her more comfortable and stopped the tummy gurgles.

Lynne Elliott

We took our dog Milly to see a vet as she was in discomfort with gas. She had been suffering for quite some time. The vet suggested we try Nutraflora, and with just the first capsule we noticed a difference in Milly, and to this present-day Milly is a different dog. We have seen a massive difference in her. In fact, my wife phoned the practice and told them how good this product was, and to let the vet know, if any other dog came in with a similar problem, this is a solution. The receptionist thanked my wife and said she would put on our record. Thank you.

David & Carol Cooper and Milly

Nutraflora contains a unique fast acting formula including a special strain of a natural probiotic bacteria (*Enterococcus faecium*) together with a prebiotic, natural antioxidants and Vitamin B12 to help maintain healthy gut function, general wellbeing, support the immune system and aid recovery.

Aids recovery & supports the immune system

Maintaining optimum gut health is essential for the immune system. Nutraflora's unique formula aids GALT immunity and contributes to the normal function of the immune system.

Fast acting support for gut health

The administration of live friendly bacteria multiplies quickly in the small intestine where it aids the normal balance of gut flora with competitive exclusion of pathogens.

Aids pets with lethargy & fatigue

Nutraflora is especially important during convalescence as it uniquely contains high levels of Vitamin B12 that boost moral, energy levels and contributes to the reduction of tiredness and fatigue.

Unique strain of probiotic

The special probiotic strain within Nutraflora has been uniquely developed to pass safely through the stomach and survive stomach acidity, so it is exclusively activated in the lower gut. It then quickly multiplies to aid the microflora balance, support gut health and aid recovery.

Nutraflora includes:

Probiotic (*Enterococcus faecium*) - Nutraflora contains a probiotic strain that helps repopulate the gut's natural microflora thus supporting the natural balance of intestinal flora. Research has shown that *Enterococcus faecium* aids faecal consistency and is useful to aid recovery.

Prebiotic (FOS) - Prebiotics act as a food source for the body's own healthy bacteria, Nutraflora is able to promote the growth of beneficial bacteria, particularly Bifidobacteria and Lactobacillus species. The FOS (Fructooligosaccharides) in Nutraflora has been shown to work in synergy with *Enterococcus faecium* for aiding healthy gut flora and normal gut balance.

Antioxidant (Carotenoids) - Nutraflora contains powerful carotenoid antioxidants to help the gut, contribute to the body's defenses and aid recovery.

Vitamin B12 - Oral supplementation of Vitamin B12 can help reduce fatigue and tiredness, red blood cell formation and normal energy-yielding metabolism. This is especially helpful during recovery. Vitamin B12 supplementation is required more in some breeds of dogs, notably Chinese Shar Peis, Giant Schnauzers, Border Collies and Beagles.

Nutraflora benefits:

- ✓ Aids long-term gut health
- ✓ Supports a healthy immune response
- ✓ High strength probiotic to aid recovery
- ✓ Quickly increases the number of friendly bacteria
- ✓ Fast acting
- ✓ Bind toxins & firms stools
- ✓ Boosts appetite & energy levels
- ✓ Supports Vitamin B12 serum levels

nutravet

nutrafibre

Natural support to encourage normal bowel movements

For dogs & cats

Fast results which showed good faecal consistency. It's easy to measure and administer, and seems highly palatable with dogs eating it mixed in food or on its own.

Julia Fry BVetMed MRCVS

Nutrafibre contains a unique combination of insoluble and soluble plant fibres, probiotic and prebiotics with fish hydrolysate that combine to help optimise gut health and stool consistency.

Optimises stool consistency

The unique Nutrafibre formulation not only helps soften stools but also has the dual benefit of being able to help firm up loose stools to aid and optimise stool consistency.

Aids long-term digestive health

Nutrafibre safely supports digestive tract health to aid digestion, normal colon function and long-term gut health, helping animals with sensitive tummies.

High Fibre – Fast Acting

Fibre helps pets form healthy stools (of the type that are easy to pick up) whilst aiding normal anal gland expression. Nutrafibre contains special sources of both soluble and insoluble fibre to optimise stool quality and provide long-term support for pets with sensitive tummies.

Assists anal gland clearance

Nutrafibre aids normal bowel movement to help encourage anal gland expression.

Additional support is especially useful when high meat diets are fed, (which contain a very low fibre content).

Nutrafibre includes:

Mixed Fibres - Dried Apple/Sugar Beet Pulp/ Psyllium - Nutrafibre contains Dried Apple, Sugar Beet Pulp and Psyllium Husk to provide an optimal blend of soluble and insoluble fibres.

Apple and Sugar Beet Pulp are excellent sources of both soluble and insoluble fibre and help absorb excess water in the intestines.

Psyllium Husk contains a unique source of soluble fibre which has a very high water binding capability, forming a lubricating gel that helps increase faecal bulk to encourage normal anal gland expression. Psyllium also helps reduce hairballs in cats.

Prebiotics and Probiotic - Some types of Prebiotic fibre act as a food source for the beneficial bacteria in the pet's gut to help aid and boost immunity. Prebiotic fibre such as FOS (Fructo-oligosaccharides) and MOS (Mannan-oligosaccharides), work in synergy with our Probiotic *Bacillus velezensis* to improve the natural gut microflora and aid stool consistency.

Fish Hydrolysate - Fish Hydrolysate provides peptides (such as Gastrins) that help maintain the gut in food sensitive animals. An additional benefit is that these peptides are very palatable and are relished by both cats and dogs.

Nutrafibre benefits:

- ✓ Softens & optimises stool consistency
- ✓ Encourages normal bowel movements
- ✓ Assists anal gland clearance
- ✓ Helps maintain a sufficient level of fibre in the gut
- ✓ Supports pets with sensitive digestion
- ✓ Helps balance raw & high meat content diets
- ✓ Helps reduce hairballs in cats
- ✓ Probiotic with multi prebiotics to aid gut function

nutravet

nutramed

Multi-action veterinary strength support for ageing pets

For dogs, cats & horses

Thanks to Nutramed my 12 year old Tibetan is now able to manage. Nutramed is helping her digestive system and her joints. She still manages to run up and down stairs. Before my vet recommended the addition of Nutramed, I had begun to notice things had started to go a bit downhill.

Carole Wright

My vet suggested Nutramed to help support my Cocker Spaniel's liver. Toby has been taking one capsule daily for nearly 3 years and his blood tests show this is helping to support his liver. Toby is now 12 years old and very energetic and runs about like a 2 year old. I would certainly recommend it. Thank you.

Miss Patricia Pearl

On the advice of my vet, I have been giving my dog (9 year old German Shepherd) Nutramed for over 8 months and I'm very pleased with the results - her movement seems easier and I've even stopped giving her other prescribed products, Thank you Nutravet!

Anthony Boland, Tyne & Wear

Nutramed has been specifically formulated by vets to support an animal's natural systems that control inflammation and provide multimodal support for joints, soft tissues and liver function, making it the perfect product for elderly pets.

Clinically formulated

Nutramed has been scientifically formulated using independent trial data. Boswellia Extract, a key ingredient in Nutramed has over 400 independent trials alone highlighting its fast acting benefits and how it helps support the natural systems that control inflammation.

Triple strength formula

Nutramed provides a novel and natural alternative for animal health care by providing a unique high strength formula for supporting the body's natural anti-inflammatory processes. This triple strength formula is aimed at supporting three key areas of animal health care; joints, soft-tissue and liver function.

Fast acting

The benefits of Nutramed are noticeable, on average within ONE week due to its high strength formula and the inclusion of Boswellia Extract which supports the natural systems that control inflammation.

Multiple benefits

Increasingly, nutraceuticals are playing a beneficial multimodal role in aiding recovery, naturally. Specific ingredients in Nutramed have a historical use and recent scientific studies confirm their benefit in maintaining musculoskeletal health and aiding liver function.

Nutramed includes:

Boswellia Extract - A plant extract that supports the body's natural anti-inflammatory processes. It plays an important role in maintaining smooth and comfortable joint movement. It also does not cause damage to cartilage.

Milk Thistle Extract (Silymarin) - Studies have shown that Milk Thistle has a beneficial effect in helping to aid healthy liver function.

Pine Bark Extract (Proanthocyanidins) - A powerful antioxidant which also supports the animal's natural systems that control inflammation to aid knocks, and sprains or post operative recovery.

Nutramed benefits:

- ✓ Supports the natural systems that control inflammation
- ✓ Soothes joints
- ✓ Aids healthy liver function
- ✓ Supports pets with high renal parameters
- ✓ Helps support the digestive system
- ✓ High strength natural tonic for elderly pets
- ✓ Fast acting

nutravet

nutracys+

Veterinary strength support for healthy urinary tract function

Fantastic product, I was given Nutracys+ from my vet for my little cat 'Angel', and within a couple of days she was like the cat we all know and love - can highly recommend.

Patricia Parker

Nutracys+ was recommended by my vet and in only 2 days the transformation in her is amazing! So pleased we have found Nutracys+, a great product!

Jo Robinson

Nutracys+ has been specifically formulated by vets to provide high strength, triple action support for healthy urinary tract function for cats and dogs with the added benefit of reducing stress and anxiety.

Triple action formula

Nutracys+ contains the unique triple action combination of N-Acetyl D-Glucosamine, Quercetin and L-Tryptophan which are beneficial for supporting normal urinary tract function whilst reducing stress and anxiety.

Veterinary strength

Nutracys+ provides a novel and natural alternative for animal healthcare by providing a unique high strength formula to support and maintain normal urinary tract function. Nutracys+ only contains the highest quality natural ingredients. All raw materials are both ethical and sustainable. No animal derived ingredients and no fillers or bulking agents are used.

Supports the bladder

A large proportion of the bladder's natural protective layer is made up of Glycosaminoglycans (GAGs). These GAGs protect the bladder walls from the irritating effects of urine. Nutracys+ contains N-Acetyl D-Glucosamine that supports the GAG layer and reduces irritation. The addition of the unique phyto-extract, Quercetin, is designed to support your pet's natural systems that control inflammation.

Reduces stress & anxiety

Reducing stress is considered to be extremely beneficial in the management and support of healthy urinary tract health. Nutracys+ includes L-Tryptophan, which is shown to aid the reduction in stress and anxiety levels due to its involvement in the production of the hormone Serotonin.

Nutracys+ includes:

Quercetin - Recent studies have shown Quercetin supports the body's natural anti-inflammatory processes and is particularly beneficial for supporting urinary tract function.

L-Tryptophan - A natural amino acid found in many proteins and is involved in the production of the hormone Serotonin and has been shown to help reduce stress and anxiety levels.

N-Acetyl D-Glucosamine - Offers structural support to the bladder lining, which acts as a natural barrier to protect the underlying urinary tract layers.

Nutracys+ benefits:

- ✓ Reduces irritation
- ✓ Naturally soothes
- ✓ Aids comfort
- ✓ Helps reduce stress
- ✓ Supports the natural systems that control inflammation
- ✓ Easy administration

nutravet

nutraren

Veterinary strength support for healthy renal function

For cats & dogs

Before Nutraren my 15 year old girl was drinking water non stop day and night and always jumping up for a wee. Now she is stable and settled, not had her bloods done for a while but Nutraren has certainly improved her quality of life for certain, thank you.

Lynne Elliott

From a clinical point of view I have become convinced that Nutravet have a range of products of real benefit to our small animal patients. I was looking for a quality product at a competitive price in what is a very crowded veterinary market. I have experienced that the range of Nutravet products perform well and do what one would expect them to do.

Mr Ian Clarke
VetMB MA MRCVS Principal

Nutraren has been formulated using scientifically proven ingredients that aid kidney health, renal function, bind toxins and support an animal's quality of life. in an easy to administer high strength gel capsule.

Multi-action formula

Kidneys play an important role including filtering waste products, controlling osmolality and regulating blood pressure. The kidneys also keep both phosphate and calcium at healthy levels. Nutraren contains a unique combination of Omega-3s, toxin binders and antioxidants that naturally help to support long-term renal function.

Natural antioxidant properties

The natural ingredients within Nutraren include Vitamin E and Chitosan antioxidants which help to keep free radicals in check and maintain renal architecture and function.

Aids blood flow to the kidneys

Nutraren contributes to the maintenance of blood pressure and optimises blood triglyceride levels to support long-term kidney health function.

Binds toxins

Nutraren helps bind toxins in the gut, which prevents them from being absorbed into the bloodstream. This helps to aid healthy blood flow into the kidneys where a stable balance of body chemicals can be achieved and waste products and excess fluid from the body are removed.

Nutraren includes:

Omega-3s - High purity Omega-3s (EPA and DHA) from fish oil can have beneficial effects on supporting the animal's natural systems that control inflammation and support a better quality of life.

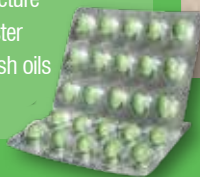

Calcium - Derived from the red seaweed Lithothamnium calcareum with its porous honeycomb structure has exceptional Calcium bioavailability and helps support renal function.

Chitosan - Chitosan from Icelandic shrimp shells, binds toxins in the digestive tract which helps to aid and maintain kidney loading.

Vitamin E - Natural Vitamin E (d-Alpha Tocopherol) acts as an antioxidant and helps to support natural blood pressure.

Nutraren benefits:

- ✓ Supports healthy renal function
- ✓ Helps support long-term kidney health
- ✓ Aids healthy kidney function
- ✓ Helps bind toxins in the gut
- ✓ Natural antioxidant properties
- ✓ Helps maintain kidney architecture
- ✓ Palatable and easy to administer
- ✓ High purity Omega-3s from fish oils
