What makes Nutraotic so unique

Cleans & soothes

Nutraotic Ear Cleaner is a gentle formulation, which can be used daily if required to clean ears and soothe itching and skin discomfort.

Softens wax build-up

The blend of ingredients within Nutraotic Ear Cleaner help to soften and lift ear wax which can be gently wiped away.

Reduces ear odours

Odours are a common problem associated with fungal and bacterial build up. Nutraotic Ear Cleaner uses a fresh scent of cucumber and melon to help mask the smell while the ear resolves itself.

Non irritating formula

The solution has been developed to calm and soothe ears. It doesn't contain any harsh ingredients.

Anti-bacterial & anti-fungal

The combination of ingredients within Nutraotic Ear Cleaner have been shown to have effective anti-bacterial and anti-fungal properties. Nutraotic helps break down the wall of bacteria, supporting the effects of antibiotics.

Aloe Vera

Nutraotic Ear Cleaner contains aloe vera to moisturise dry and irritated skin, helping soothe and reduce itching and discomfort in the ears. It aids the body's natural anti-inflammatory processes whilst being gentle to the skin.

Salicylic acid

Supports overall ear health, but primarily acts as an exfoliating agent, helping to remove dead skin and excess wax from the ear canal. It also has anti-fungal and anti-bacterial properties. Salicylic acid also supports the natural systems that control inflammation to help soothe irritated skin.

Tetrasodium EDTA

EDTA enhances the anti-microbial effectiveness of the cleaner by disrupting bacteria cell walls, making the bacteria more susceptible to other anti-microbial agents. Its buffering action helps to create a solution that is less irritating to the sensitive ear canal, improving overall comfort.

Benzoic Acid

Benzoic acid is commonly known for its anti-fungal and anti-bacterial properties. It helps to optimise pH in the ear to create an unfavourable environment for microbial growth.

Vitamin E

Vitamin E is a powerful antioxidant which aids the skin cells and helps to support the healing within the ear canal. Tocopherol also aids the integrity of the skin barrier, promoting overall health.

Ingredients

Water, SD alcohol 40-B propylene glycol, nonoxynol-12, glycerine; fragrance, disodium oleamido MIPA sulfosuccinate, salicylic acid, benzoic acid, benzyl alcohol, lactic acid, tetrasodium EDTA, aloe barbadensis (aloe vera) leaf juice.

Direction for use

Apply liberally into the ear canal. Massage the base of the ear. Allow pet to shake head. Clean excess with cotton or cloth.

Not to be used in cases of ruptured ear drum.

In excessively dirty ears:

Apply 2-3 times daily over several days.

For maintenance of healthy ears:

1-2 times weekly or as often as recommended by your veterinarian. Always apply after swimming.

We were recommended Nutraotics ear cleaner to help Sally our lovely Yorkshire Terrier who was constantly scratching her ears. The solution was easy to apply and helped to settle Sally's itching and scratching within a week, excellent product.
