Pet Ready Soothe & refresh deodorising spray

Hydrates & freshens

With a refreshing and long lasting formula, this deodorising spray is helpful for odorous pets or those who are prone to picking up unwanted scents.

Aids detangling

Soothe & Refresh Deodorising Spray makes grooming easier by hydrating, nourishing and enhancing a pet's skin and coat. It allows knotted and tangled hair to be brushed and smoothed easier.

Non irritating formula

The soft and gentle spray is water based and utilises a hypoallergenic formula that helps pets with sensitive skin. It doesn't contain any harsh ingredients and is paraben free.

Eliminates odours

The spray helps add extra freshness for pets after or between baths, perfect for eliminating odours.

Fresh scented formula

The scent used within Soothe & Refresh Deodorising Spray has a fresh, tropical aroma that is fruity, summery and long lasting.

Soothing & gentle

Soothe & Refresh Deodorising Spray is formulated with the soothing benefits of aloe vera and oatmeal that help with sensitive, irritable skin.

Enriched with aloe vera

Aloe vera is commonly used for its soothing and hydration benefits, as well as skin calming effects. This green plant is rich in essential nutrients with antioxidants and anti-inflammatory properties.

Panthenol (vitamin B5)

Panthenol comes from vitamin B5 and is used due to its ability to bind the hair providing hydration. Panthenol also strengthens the hair shaft as well as the skin and soothes dry, itchy skin and reduces hair loss.

Hydrogenerated castor oil

Derived from castor oil and useful in dispersing water, offering good moisturising properties. It helps to add shine and smooth strands for easier grooming.

Polysorbate-20

The inclusion of polysorbate-20 emulsifier allows oil and water to combine and acts as a cleansing agent lifting dirt from the skin and hair.

Ingredients:

Water, polysorbate 20, PEG-40 hydrogenated castor oil, panthenol (vitamin B5), aloe leaf juice, fragrance, methylisothiazolinone.

Directions for use:

Use as often as necessary to keep your skin and coat clean and free of dirt and debris.

Makes my dog smell so yummy. I also have noticed it doesn't make him greasy or anything, but it does leave his fur soft and the scent lasts a while!
